PROFESSIONAL SUMMARY

Results-driven Full Stack Developer and Computer Science graduate from Kongunadu College of Engineering and Technology with experience in Python, Java, Django, React, and Flutter. Currently working as a Software Developer Intern at Wattstrons, contributing to responsive UI development and RESTful API integration in Agile teams. Skilled in scalable web and mobile application development, database management, and machine learning (ML) model deployment. Seeking a full-time Software Developer role to deliver clean, efficient solutions.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, HTML, CSS

Frameworks: Django, React, Tailwind CSS, Spring Boot

Databases & Tools: MySQL, SQLite, Git, GitHub, Figma, RESTful APIs, VS Code

Concepts: OOP, MVC, Agile, SDLC, Responsive Design, API Integration, Machine Learning, CNN

PROFESSIONAL EXPERIENCE

Software Developer Intern — Wattstrons

Aug 2025 – Mar 2026 | React | Tailwind CSS | RESTful APIs

- Developed 15+ React UI components with Tailwind CSS animations, improving frontend consistency and user experience across the app.
- Integrated 5+ RESTful backend APIs enabling seamless server-client communication and reducing data fetch errors.
- Designed responsive layouts and collaborated in Agile sprints, consistently delivering tasks on time.

PROJECTS

Smart Leukemia Detection System — Python, MobileNetV2 CNN, Streamlit

- Trained MobileNetV2 transfer learning model to classify blood cell images and predict leukemia stages with high accuracy.
- Deployed real-time Streamlit web interface for instant AI-powered image predictions; strengthened ML deployment and preprocessing skills.

Student Housing Management System — Django, MySQL, Python

- Built full-stack Django app automating room allocation and maintenance tracking for 100+ student records with role-based access control.
- Designed normalized MySQL schema and implemented Django auth framework, improving query performance and security.

MediMate — Medication Manager App — Flutter, SQLite

- Developed cross-platform Android app for medication scheduling, dose alerts, and appointment reminders with Material Design UI.
- Integrated SQLite (offline) ensuring data persistence across sessions and devices.

EDUCATION

B.E. CSE - Kongunadu College of Engineering and Technology | 2021–2025 | CGPA: 7.9/10

HSC - Sri Vinayaga Matriculation Hr. Sec. School | 2020–2021 | 81.8%

SSLC - Sri Vinayaga Matriculation Hr. Sec. School | 2018–2019 | 78.2%

CERTIFICATIONS

Full Stack Java Developer - ExcelR (ID: 11099/EXCELR/05012026)

Django Development - Udemy (2024)

Python Programming - Certiport (2024)

Java Programming - Wipro (2024)
